Give This Beautiful Aeolian-built Player-piano To Your Family

A fine piano is, of itself, a fine gift-combined with the means for immediate artistic playing, in a form that even a musical beginner or child can use, it is the Supreme Gift.

The Technola is more than a fine piano; it is a musical masterpiece, unapproached at its price and of such extraordinarily beautiful quality that great masters of music like Rosenthal, Moszkowski, Nikisch, and others equally famous, enthusiastically endorse it.

The player-action in the Technola Piano is made by the Acolian Company, the world's leading specialists and authority on playerinstruments. Among all player-pianos it has no equal save in the higher-priced instruments made by the same makers. Ordinary player-pianos sold elsewhere, and costing as high as \$650, cannot compare with it.

Give your family this wonderful player-piano. Your wife and children can use it for hand-playing and practice, the same as any other piano. It will enable you to have all the music you wantpopular songs, ragtimes, two-steps, operas, hymns and fine classics—in your home, every evening. The cost of this music is so slight that you will never feel it.
